REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

with regard to claims 1-11 and 21-24, prior art does not teach an equalizer or a method to equalize signals transmitted on a line wherein the position of the pole of an analog adaptive filter is moved toward high frequencies of a working frequency band as the line attenuation increases and the position of the zero of an analog adaptive filter is moved toward low frequencies of a working frequency band as the line attenuation increases, as recited in claims 1, 8 and 21;

with regard to claims 13-20 and 25, prior art of record does not teach or suggests in combination an equalizer for signals transmitted on a line having an attenuation comprising the limitations respectively recited in claims 13, 18 and 19, as originally filed, in combination with the limitations recited in claim 12, as originally filed. Claims 13, 18 and 19 have been rewritten to include all the limitations of claim 12.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The drawings were received on October 6, 2005. These drawings are acceptable.
